Dear Child Care Provider,

This letter is in regards to the March 6, 2015 compliance check of your Level A, Registered Child Development Home. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. The following areas were out of compliance at the time of my visit:

☐ 110.5(1)k Fire and tornado drills are practiced monthly and documentation kept.

Please make sure to resume practicing the fire drills. Its very important that the children know what to do in the event of a true emergency. To make this process easier there is a form in the packet provided to you at the time of the spot check where you can document your monthly practices as well as testing your smoke detectors. Please refer to page 7 of the packet. I would suggest hanging this form on your refrigerator, kitchen cabinet, or another easily visible location as an easy reminder.

☐ 110.5(2) A provider file is maintained and contains:

☐ 110.5(2)b Certification by an approved trainer/organization in infant and child first-aid that includes mouth-to-mouth resuscitation. Certification will be maintained throughout period of registration. If they are unable to locate first aid training that includes mouth-to-mouth resuscitation, they must complete both a first aid course and CPR.

Please make sure you renew your CPR/First Aid certification as soon as possible. You will not be allowed to renew registration without a current certification. If you need assistance locating a class please contact Child Care Resource and Referral at 1-800-722-7619 or 515-246-3560.

☐ 110.5(2)b During the second year of registration and each succeeding year, twelve hours of approved training. At least six hours shall be in a group setting. If the provider has documentation of completing the ChildNet, PITC, or Beyond Business Basics series, these hours may be used to fulfill two year's training requirements, not including first aid and mandatory reporter training. A specific training shall not be used to meet requirements more than one time every five years.

By my calculations at the time of the spot check, you needed an additional 4 ½ hours of training to complete the required hours for this year. You can contact Child Care Resource and Referral for assistance in locating courses. There are also some online possibilities listed on page 11 of the packet of forms. Please note that online classes may come with a cost.

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. **Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations within the next 45 days.**

☐ Based on the items out of compliance listed above, you will be required to have a recheck or follow up visit to your home. This visit will occur after the 45 day time period has elapsed.

x ☒ Based on the items out of compliance listed above, a recheck or follow up visit to your home is **NOT** necessary. However, it is essential you provide documentation to the Department that certifies you have corrected each of the identified regulatory violations and are now in complete compliance with all Departmental regulatory mandates. **Please check mark each of the boxes listed above when the necessary corrections have been completed. By doing so, you certify that you have completed all of the mandated regulatory requirements contained within each identified section.**

I certify that I have taken all of the steps necessary to correct each of the identified violations noted above and am now in complete compliance with all of the Departmental mandated regulatory rules.

Please sign and date below, and return this form in the provided envelope by: May 18, 2015.
